

The WiPB Committee met on 01/17/2023 on Zoom. Committee members present included: Dianne Pater, Andrew Foudree, Sibongile Mafu, Jenny Mortimer, Burcu Alptekin, Maryam Rahmati Ishka, Rebecca Roston, Eva Farre. Sylvia Lee also attended.

We announced that both of our workshop proposals have been selected for the Plant Biology 2023 Conference in Savannah, Georgia. So make sure you look into them when registering for the meeting:

- Entering leadership roles (led by Dianne, Andrew)
- How to create your mentoring network (led by Eva, Rebecca, Burcu)

The committee also evaluated the Women Young Investigator Travel Awards applications and selected seven awardees. We are looking forward to meet them all in Savannah!

Don't hesitate to contact us if you have questions or suggestions, or would like to participate in any of our efforts.
