Plant Physiology Focus Issue on Cellular Dynamics

To be published in January 2018, this Focus Issue will provide a series of invited Update Reviews on hot topics in plant cell biology, with broad coverage of the major plant organelles and cytoskeletal systems.

Deadline for submissions: June 5, 2017.

Plant Physiology Focus Issue on Energy: Light and Oxygen Dynamics

To be published in February 2018, this Focus Issue will consider topics ranging from cellular processes to developmental decisions, in the context of the organism and its interactions with a dynamic and challenging environment.

Deadline for submissions: August 1, 2017.

EDUCATION & OUTREACH

New Teaching Tool: It's Not Easy Being Not Green

This Teaching Tool explores the biology and evolution of parasitic plants and their impact on agriculture. It also describes the molecular evolution of a parasitic adaptation at a level intended for advanced students.

BotanyLive!

As part of [Fascination of Plants Day 2017](#), a live-streamed event called [BotanyLive](#) is taking place from May 18-21, giving viewers a peek into the lives of scientists, science communicators, educators, and anyone who feels passionately about plants.
